

Equipment Safety Requirements

While Marchstream Tool Hire Limited presents an advisory as to what PPE should be necessary when using the specified equipment, such advisory is intended as a guideline only. Before hiring equipment from Marchstream Tool Hire Limited, you should ideally perform your own risk assessment to determine what equipment is suitable for the task at hand and what safety precautions must be put in place.

Ear Defenders	Protection for ears and hearing from hazardous noise volumes.
Face Mask	Helps prevent inhalation of airborne dust and particulars.
Gas Mask	Allows safe breathing in areas with airborne toxins or carcinogens.
